

1.36.4.4: Pakal Votan KIN 189 and The Dragon with Infinite Heads

Dear and dear synchronauts.

Today the Harmonic Module or the Tzolkin restarts with a new adventure of 260 codes starting from the **KIN 1 Red Magnetic Dragon**. The KIN statement for this time code is:

I unify in order to nurture,
Attracting being
I seal the input of birth
with the magnetic tone of purpose.
I am guided by my own power doubled.
I am a galactic activation portal, enter me.

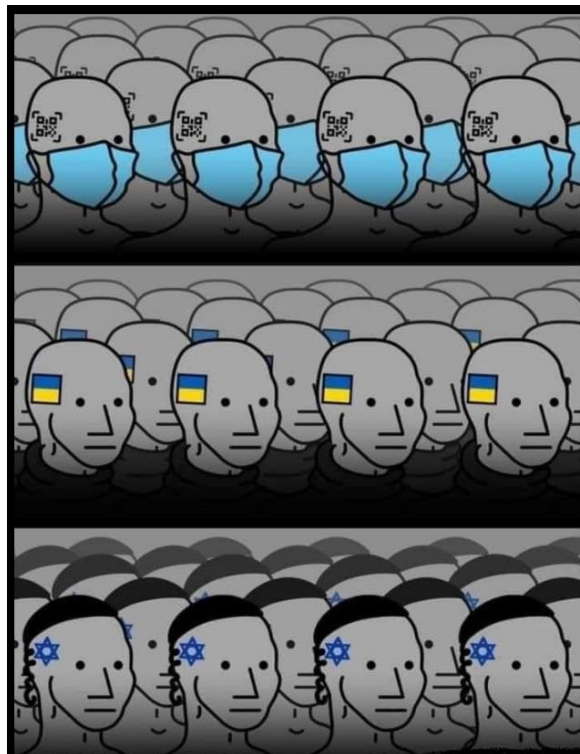

Each time we re-start the Tzolkin wheel from the terrestrial plane, the main purpose is to restore the synchronous order with several of the programs based on the 4D study and configuration tools. In the same way, the present purpose enters into resonance with other wheels of the past (and also the future) given that one of the characteristics of time is its fractality and therefore its holonomicity encompassing the whole from the partial (holonomic = A part that explains everything).

Today, Kali 4 of the Self-Existing Moon of the Owl (Moon 4 of the form) from the [KIN 1 Red Magnetic Dragon](#), a select group of planetary KINES are re-formulating the activation of the Noosphere that is prophetically announced its advent for the year 2029.

However, and even embracing the good intentions of all those who nourish the awakening of the language of telepathy in humans, thus opening the gateway to the Noosphere on planet Earth, it must be said and emphasized forcefully that

WE ARE IN WAR!

We have already spent more than 5,000 years with this decline in time that began to occur from its beginnings with the slavery of animals, unjustly converting them into our food. Beyond everything that can be read in the articles of the 13 moons and the banner of peace within the portal, the History Dreamspell History has made lying and deception the formula for governing the external affairs of the world being (materialism or 3D) taking the division of the mind to such a point that those who are trying to reverse this mechanistic and transhumanist paradigm generated by the 12:60 frequency are also led to individualistic and misaligned purposes due to their own need. It requires the soul to wake up from a nightmare and they have no choice but to adapt to the contractual circumstances.

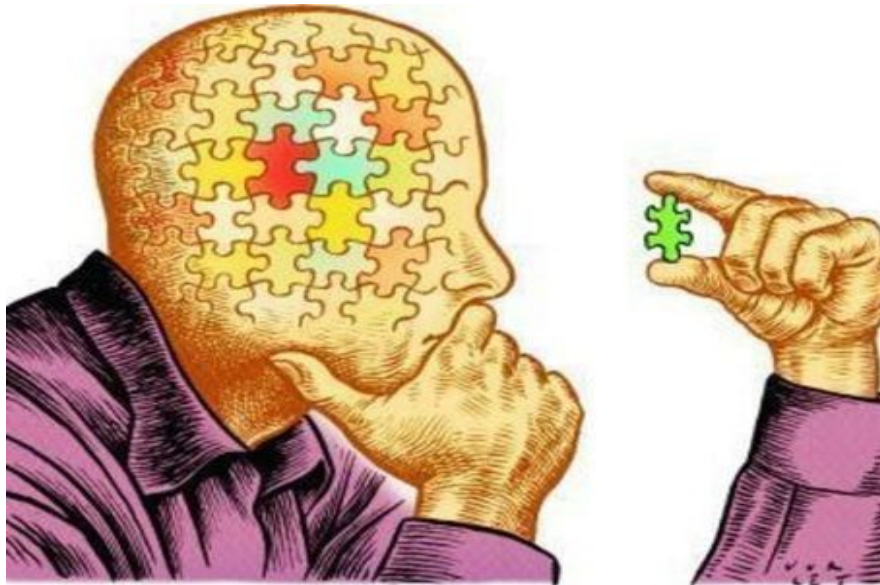

To begin with, it is worth remembering that the discovery of the tomb of Pakal Votan **KIN 189 Red Resonant Moon** (see article 1.34.9.2: The KIN birthday of the great Pakal Votan) is the starting point to begin studying (remembering) the science of time and that, beyond understanding the nature of the time codes, the essential part of this study must delve into the importance of operating with a harmonious measurement of time that is established by adopting the synchronarium of the 13 Moons. In fact, **KIN 189 Red Resonant Moon** can be seen in some ways as “channeling the flow” taking the lunar cycle as a frame of reference to measure the dimension of time (4D).

For this and other reasons, time codes should not be seen as the central element of the study of time science but as a part of the language of telepathy that encompasses many more tools than these. This telepathic language cannot be expressed unilaterally with words nor in the generalized way that most planetary KINs are doing. This leads to the same prison of the 12:60 frequency where some on top of each other are expressing their ideas and

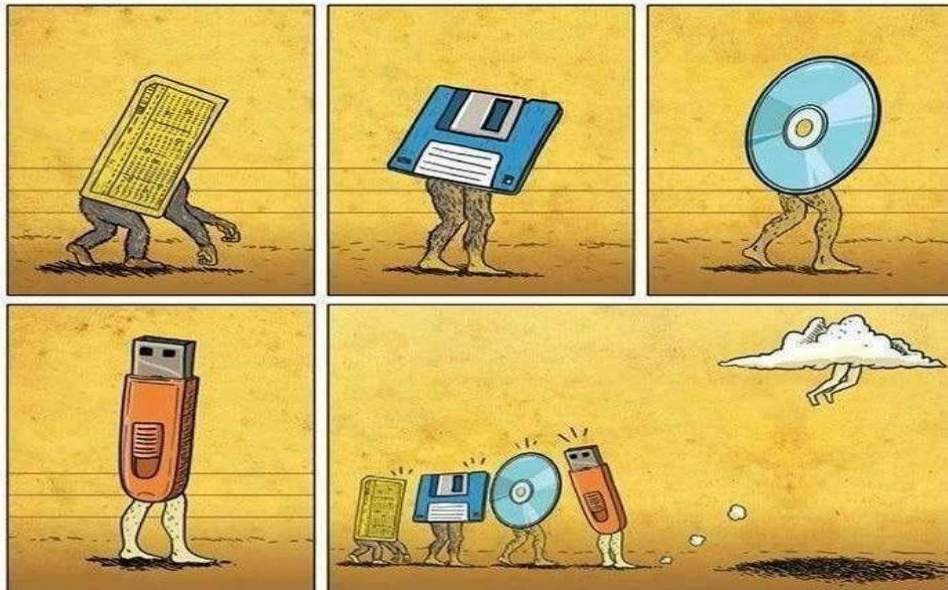

subconsciously fighting to see who has more credit for the information, that is, one more trap of the 3D ego illusion.

Explaining the science of time or synchronology solely or exclusively from the time codes is still a tangle of rationalist thinking that adopts the word as a defining element when in reality what the infinite mind seeks is not to delimit knowledge but to make a way for it. achieving dreams through evolution.

Precisely, this approach is causing the necessary information for real evolution to not be given since instead of releasing and communicating from the telepathic flow, instead what is being done is talking about the time codes and nothing more. All of this can be very good for selling books, filling the internet with videos, gaining followers on Social Media seeming that the information is being given in an optimal way... but deep down it is not going anywhere because there is nowhere to go if we do not talk about what is fundamental and transcendental.

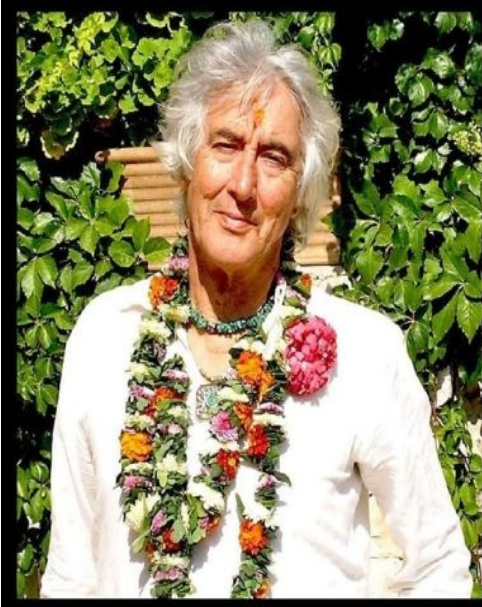

LA EVOLUCIÓN DEL ALMACENAMIENTO DE MEMORIA

They are detours of rationalist thinking and limitations since the study of the synchronic order can only be carried out transpersonally. To do this, each one must synchronize with their inner avatar or soul and that can only be achieved by awakening the self-reflective mind. By this I mean that people who want to learn about the science of time should do it for themselves and experience the synchronic order, leaving aside those certainly exoteric explanations.

All of this was already done very well in a genuine and avataric way by José Argüelles [KIN 11 Blue Spectral Monkey](#), contributing to all of humanity his discovery of the Law of Time... but then what each of you intends to be is the new José Argüelles? At the cost of what? To make money when you know that this is the main cause of soul slavery on the planet?

La Ley del Tiempo cuatridimensional gobierna el orden sincrónico del mundo de las apariencias tridimensionales.

Jose Argüelles

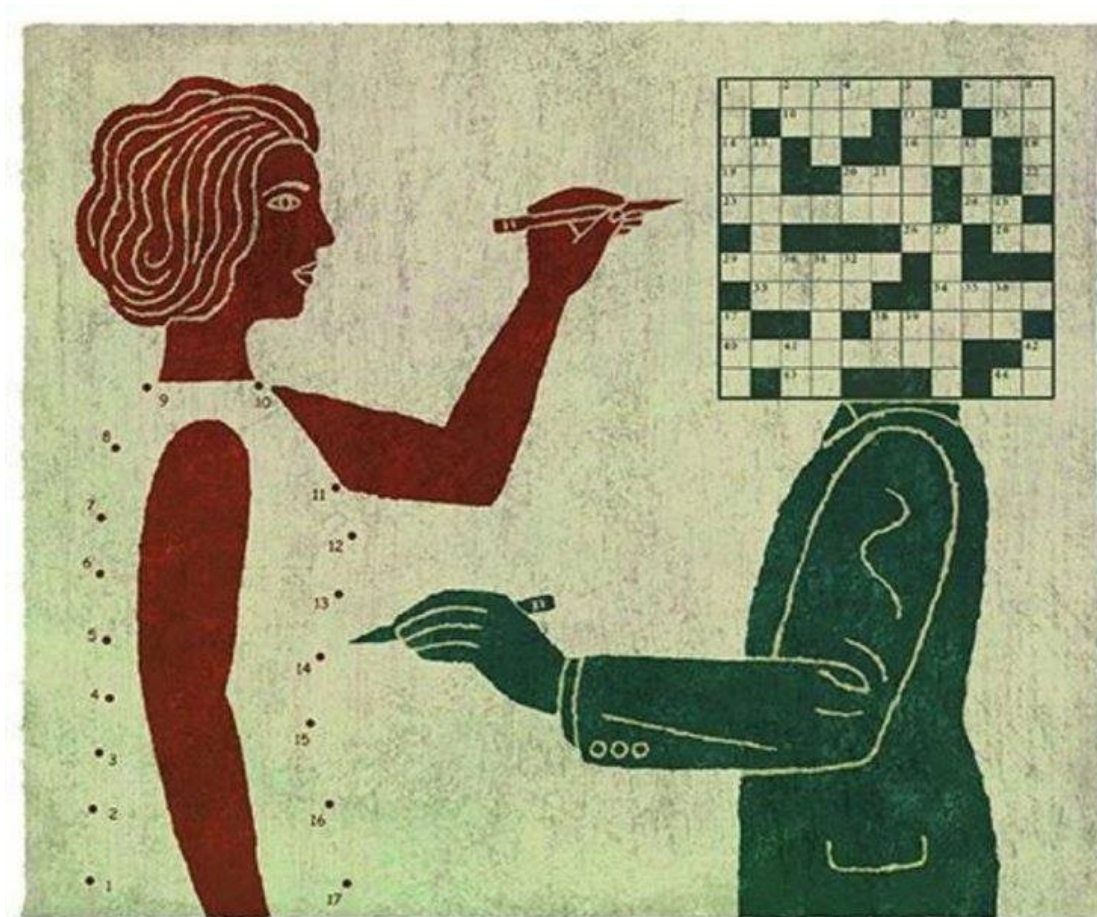

And it's okay to make money if it somehow helps the planetary purpose of understanding the Law of Time, which is $\text{TIME} \times \text{ENERGY} = \text{ART}$. The correct thing has always been, is and will be to awaken this formula in each of the sleeping souls that inhabit human bodies and that seek to awaken from the Dreamspell.

What is my ART? What is your ART? What is our ART?

If your art is explaining time codes, go ahead. If your art is to paint a new reality, go ahead. If your art is to help in the process of collectivizing the Law of Time, go ahead.

To achieve the right answers you have to ask the right questions and this implies that awakening art in others does not only have to be done through the codes of time. Understanding this is the formula for the vast majority to begin to vibrate in tune with the Noosphere.

If there is no worldview of the Law of Time, talking about the codes of time is like playing marbles because it is not serving the purpose of transcending war and ignorance in the world.

If there is no conscious intention to continuously syncretize each of our experiences as a work of art, embracing all those people who still do not understand the importance of changing an artificial calendar of 12 irregular months for the synchronary one of the 13 moons, the Noosphere will not be consciously awakened by the year 2029 as expected, and in the same way the Great Closing of the Cycle of History 12/21/2012 only served in general for a few people to appear in the photo but it was not at all they met most of the expectations raised by that date, causing many personalities to leave this information aside, falsifying its importance.

**"Twitter te hace pensar que eres sabio,
Instagram que eres fotografo y
Facebook que tienes amigos..."**

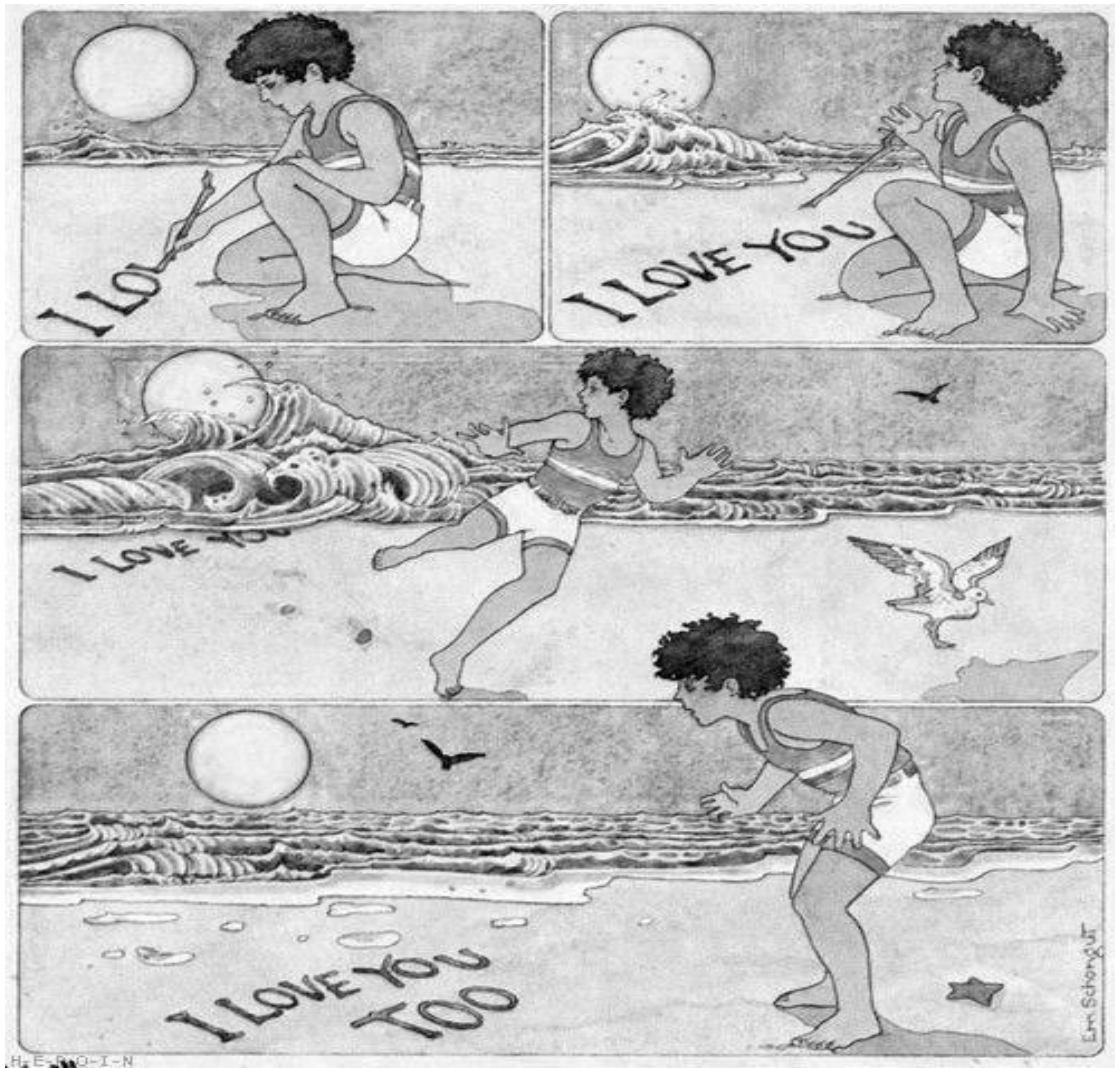

EL DESPERTAR VA A SER DURO"

As Galactic Maya 999 I have always been here and I have not yet needed to meet with anyone of you who are on the move because I know that the truly supernatural that is the Noosphere is yet to be experienced.

Only when numbers are above words, then you will be able to communicate with me/each other. Sincerely,

Galactic Maya 999.

P.S: Among many other personalities that can be seen in the In Lak Ech Cards section, today is the KIN birthday of one of the most important Earth Wizards: Eliphas Levi **KIN 1 Red Magnetic Dragon**.

Eliphas Levi

Among many of his extraordinary contributions to the world of magic, I share with you a fragment of “The Book of the Wise,” a true masterpiece for consciousness.

(...)

ELIPHAS LEVI – Will we renounce science because there are ignorant people? And will religion have to be abandoned because certain people understand it and practice it poorly?

THE INITIATE – The world is tired of dogmatic absurdities.

ELIPHAS LEVI – Are they comparable to the absurdities of materialism? But I speak to an initiate who knows that occultism, that is, apparent absurdity, is the very essence of any dogma. Those of the Emerald table are darker and more absurd in appearance than those of the apostles symbol. Hermetic books like the Apocalypse and the visions of Ezekiel seem completely inexplicable and that is why they have come down to us. If they had been understood, they would have caused revolutions in the world and would have been suppressed. You know the story of Saint Paul burning the magic books of Ephesus, of Omar setting fire to the Library of Alexandria and of the inquisitor throwing the books and authors into the fire. Dogma is the enigma of the Sphinx. Those who guess must keep silent and hide from the envious that they have become kings and priests. Those who do not guess are devoured by the monster.

THE INITIATE – Then you have to do like Oedipus. The monster must be forced to rush into the abyss.

ELIPHAS LEVI – And restart the war of Thebes and the extermination of the enemy brothers. Take religion away from the world and men will tear themselves apart; The strong will crush the weak, the poor will kill the rich. Don't you hear, as faith weakens, how social war rages in the shadows? Believe me, when the candles on the altar are extinguished, you will see the torches of the universal conflagration light up.

THE INITIATE – Do you not believe, then, in human reason?

ELIPHAS LEVI – Reason without faith does not advise self-denial and does not admit sacrifice. Man is selfish for reason; It is not great and generous but by belief.

THE INITIATE – I think like you. Believing in honor, believing in love, believing in virtue, is believing in God and I would like to spread this healthy faith throughout the world. Theism, in our time, is enough for the world.
